Laundry and Textile industry products

Filter systems for commercial washing machines

The patented
Wasterwater filter system
from HJS

Filter systems for commercial washing machines

For filtering out fluff and coarse particles from the suds

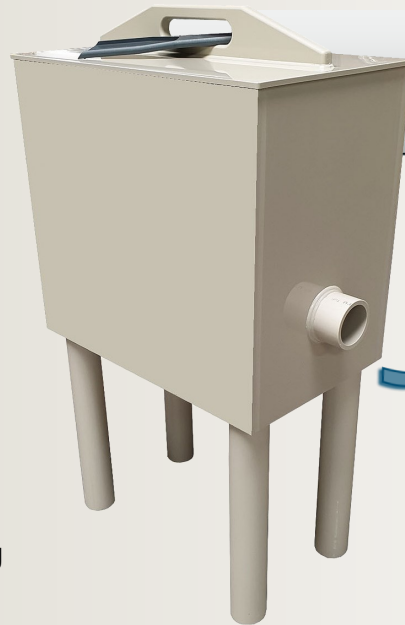

Area of use:

- For use with heavily soiled textiles like cleaning mops
- For connection to industrial washing machines
- Prevents clogging in the drainage system

Advantages over other systems:

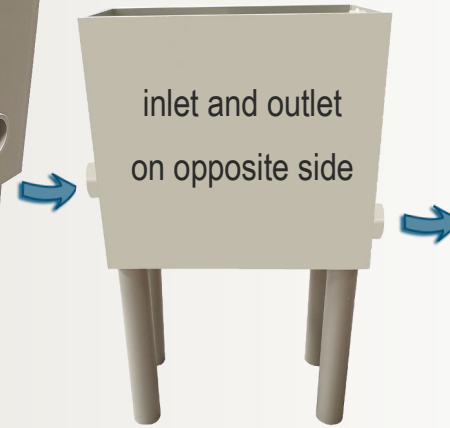

- Floor with slope to the drain
- All parts made of acid- and alkali-resistant plastic
- No sharp metal edges, reducing the risk of injury when cleaning
- Infinitely variable height adjustment using the supplied attachment tubes
- Raised position of the filter basket, thus no swamping not even in submersible pump operation
- Easily removable filter basket with handle and collection tray for coarse dirt and sand
- Includes handy plastic spatula for easy cleaning
- Lid with handle for closing the filter chamber, marked formation of odors and steam
- Integrated chamber for submersible pump with cable bushing and pump connection G 3/4" internal thread

Matching pump and connection set are available separately.

FILTERBOX Modell S "Straight"

Inlet and outlet on opposite side Item No. 0721000

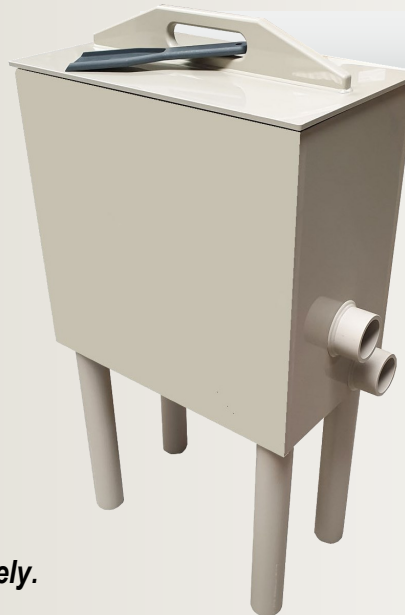

Technical specifications:

Dimensions model "S": L 580 x W 320 x H 560 mm
Length of the attachment tubes 400 mm
Inlet pipe \varnothing 75 mm (inside approx. \varnothing 60 mm)
Drain pipe \varnothing 75 mm (inside approx. \varnothing 60 mm)
Weight 17,00 kg

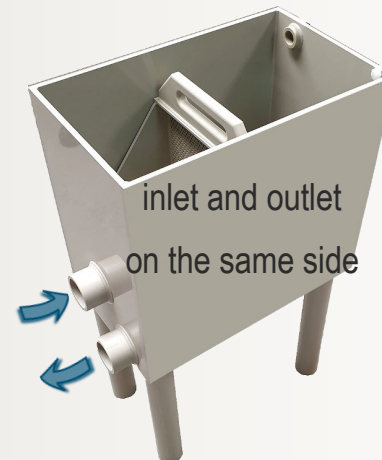

Packing dimensions & weight:

L 630 x W 380 x H 630 mm
17,88 kg

FILTERBOX Modell SBS "Side by Side"

Inlet and outlet on the same side Item No. 0720000

Technical specifications:

Dimensions model "SBS": L 580 x W 320 x H 560 mm
Length of the attachment tubes 400 mm
Inlet pipe \varnothing 75 mm (inside approx. \varnothing 60 mm)
Drain pipe \varnothing 75 mm (inside approx. \varnothing 60 mm)
Weight 17,00 kg

Packing dimensions & weight:

L 630 x W 380 x H 630 mm
17,88 kg
